

FORMECA

**AUTOMATIC GROUP
PACKAGING MACHINES**

Formeca CP/TP and CP/WA

Formeca automatic group packaging machines are fitted with a product-specific grouping system that is always designed to suit the product and the capacity of the production line. Special systems are available for bottles, cases, cartons and even soft packages. The latest robot grouping systems can also automatically package products in a variety of shapes and sizes. The machine arranges the products into groups that are conveyed onto the cardboard blank for packaging.

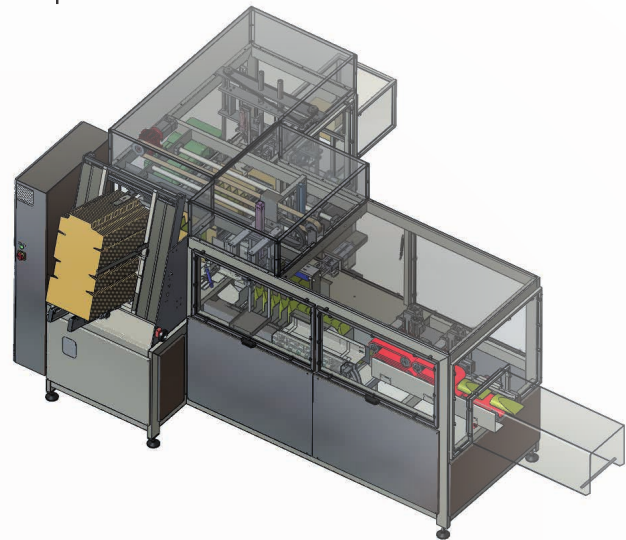

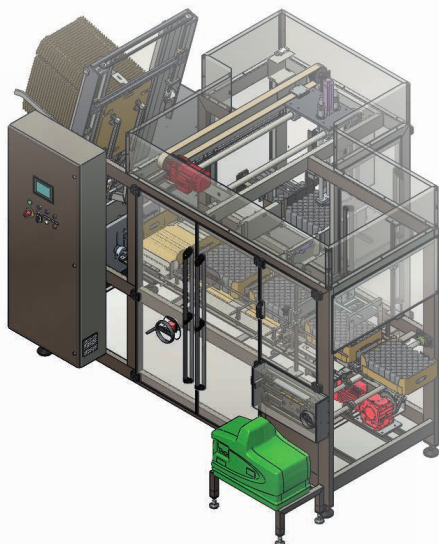

Example of box structure.

FORMECA CP/TP AND CP/WA

Thanks to their manufacturing materials, Formeca packaging machines are also ideal for production facilities that require high standards of hygiene, for example in the food industry. The packaging machines incorporate soft starting and stopping functions enabling safe handling of fragile products. All Formeca packaging machines are made in Finland. They can be modified for various box structures according to the requirements of the customer's packaging operation.

FEATURES:

- grouping system designed for specific products
- ready for a wide range of FEFCO structures
- motorised overhead transfer arm moves the prearranged product group onto the cardboard blank
- packaging size can be changed swiftly using an adjustment mechanism and program options
- the machine may be fitted with an elevator or overhead magazine
- helpful display panel available in various languages
- packaging speed automatically adapts to the speed of the production line
- connections: 400VAC/50Hz electric power and 6 bar compressed air

Formeca CP/TP for packaging on trays

- packs product groups on various trays
- the blank under the product group is closed into a tray in a gluing and pressing station
- a lidding unit can also be included in the packaging line
- capacity of 25 trays per minute
- machine dimensions (length/width/height) 2800 x 1000 x 2150 mm
- box size minimum 230 x 80 mm and maximum 500 x 400 mm

Formeca CP/WA for packaging in boxes

- the wrap around machine packs products in various boxes sealed with adhesive
- the machine forms the blank into a package around the product that is then sealed in a gluing and pressing station
- capacity of 20 boxes per minute
- machine dimensions (length/width/height) 2800 x 1000 x 2150 mm
- box size minimum 230 x 80 mm and maximum 450 x 400 mm

Formeca is part of the Finnish technology company Orfer Oy.
